SUMMARY

Aspiring Java Developer with hands-on experience in Spring Boot, REST APIs, MySQL/PostgreSQL, HTML, CSS, and JavaScript. Currently expanding expertise in AI Engineering and LLM applications while building clean and scalable software.

TECHNICAL SKILLS

Languages: Java, C, C++, Python, JavaScript, HTML, CSS

Technologies/Frameworks: Spring Boot, ReactJS, Bootstrap, MySQL/PostgreSQL, Hibernate/JPA

Developer Tools: VS Code, IntelliJ IDEA Ultimate, Postman, Git, GitHub

PROJECTS

ClothMarket — Digital Marketplace for Local Textile Sellers 🚀 | [Spring Boot](#), [React](#), [MySQL](#), [WebRTC](#)

- Built a full-stack marketplace to help local cloth sellers/weavers in my town showcase products online and connect with buyers, solving a real gap in digital access for small textile traders.
- Implemented real-time chat, voice messages, and live audio/video calling (WebRTC) so buyers and sellers could communicate and close deals remotely.
- Designed secure JWT-based auth, searchable user profiles, and a mobile-responsive UI end-to-end (Spring Boot backend + React frontend + MySQL).

TakeDose – Vaccination Booking System 🚀 | [Spring Boot](#), [JPA](#), [REST](#), [MySQL](#), [Maven](#), [Postman](#)

- Developed a backend application to manage user registration, vaccination centers, slot availability, and appointment bookings.
- Designed and implemented RESTful APIs using Spring Boot for authentication, booking, and center management.
- Integrated MySQL with Spring Data JPA for efficient data persistence and transaction handling.
- Tested and validated APIs using Postman to ensure proper request handling and error responses.
- Followed MVC architecture and clean coding principles for modularity, scalability, and maintainability.

Library Management System 🚀 | [Spring Boot](#), [JPA](#), [REST](#), [MySQL](#), [Maven](#), [Postman](#)

- Built a backend Library Management System using Spring Boot and Spring Data JPA to manage books, users, and transactions.
- Implemented secure authentication with email verification and role-based access control.
- Developed RESTful APIs supporting complete CRUD operations with Hibernate/JPA.
- Used Lombok to reduce boilerplate code and improve code readability.
- Applied clean architecture and best practices to ensure scalability and performance.

EDUCATION

Maulana Azad National Urdu University

B.Tech in Computer Science - CGPA - 8.0

2023 – 2027

Hyderabad, Telangana

Aligarh Muslim University

Diploma in Civil Engineering - CGPA - 8.05

2020 - 2023

Aligarh, Uttar Pradesh

CERTIFICATIONS

Introduction to Prompt Engineering with GitHub Copilot – Simplilearn

Java Course (Mastering the Fundamentals) – Scaler Topics
